# Artist Series

2009 - 2010

**We are pleased to present the third season of the Palmetto Artist Series. With an aim towards excellence and joy, the purpose of the Palmetto Artist Series is to positively impact the community by providing cultural enrichment that reflects the natural creativity given by God.**

One may ask: Why would a church host a concert series, and especially with music that is not considered sacred? There was a time in history when the church was the center of music and arts in society. That historic role fits with our worldview here at St. Andrews. We agree with Abraham Kuyper who declared, "There is not a square inch in the whole domain of our human existence over which Christ, who is sovereign over all, does not cry 'Mine!'" That statement has huge implications for all of life, but certainly no smaller implication for music and the arts.

So, we celebrate the talents and creativity of men and women and believe that God, their Creator, is glorified when they make use of them. We desire to provide opportunity for local and national talent to perform in this venue. It is our pleasure to present to you, our community, this series of concerts for your enjoyment and enrichment.

Blessings,  
*Dale Welden*
